

Ultimate Astragal French Door Solutions

SUPERIOR PERFORMANCE AGAINST WATER INFILTRATION

The Ultimate Astragal offers a patented 3-point sealing system to provide a superior seal not found anywhere else in the industry. The perfect solution to real world French Door problems.

U.S. Patent No. 5,857,291
and other patents pending.

SUPERIOR SEAL

An excellent seal is created and maintained between the astragal and the active door, the inactive door and the sill. Our "floating seal" will not deform over time of normal use and creates a strong seal with the sill every time.

FEATURES

- Patented 3-Point Sealing System
- 24" One-Piece Bolt Assembly
- Thermally or Non-Thermally Broken Astragal Body
- Accommodates 6' and 8' door units
- Fully Encapsulates Inactive Door
- Applied Seal and Simple Solution® Corner Pad
- 4-Way Positionable Strike Deadbolt Retainers

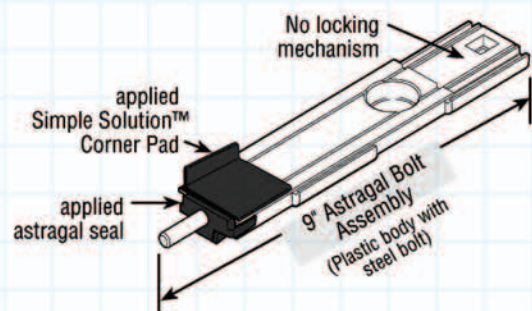

PATENTED 3-POINT SEALING SYSTEM

At active door... the inactive door... and at the sill.

ULTIMATE ASTRAGAL LITE

The Ultimate Astragal Lite is an economical alternative to our popular **Ultimate Astragal French Door** solution. It offers the same patented 3-point sealing system and incorporates most of the innovative features that separate the Ultimate Astragal product line from other astragals in the market.

WOOD CLAD ULTIMATE ASTRAGAL

Molded from clear grade lumber and ready for finish coating, this high performing astragal adds value to any wood or stainable fiber glass door unit. Available in oak, pine, fir and mahogany.
