## LUMBER PRODUCTS

# *Ultimate* Exterior Trim

The softwood lumber used to manufacture SumX Trim™ for Lumber Products was selected for its natural resistance to decay and overall durability. The raw material is harvested predominantly from Asian plantation forests, to ensure a sustainable supply and protect our natural resources. The strength characteristics of the wood combined with the manufacturing process results in a highly stable and functional Exterior Trim Board; engineered for years of performance

Greenwood International Inc. proudly offers a ten year limited nontransferable warranty on SumX Trim™ – please ask your LP sales representative for full details!

## WHY SELECT ENGINEERED EXTERIOR PRIMED WOOD TRIM?

- ✦ Environmentally Responsible
- ✦ Reversible to Allow Two Choices of Appearance
- ✦ Non-Textured on One Side with Radius Edges
- ✦ Re-Sawn Texture with Square Edges on Reverse
- ✦ 20 Foot Length Allows for Fewer Joints
- ✦ In Stock in a Wide Variety of Standard Dimensions to add Flexibility and Maximize Cutting Options on the Job Site
- ✦ Sealed Knots and Three Coats of Latex Primer Prepare Lumber Products Ultimate Exterior Trim for Years of Beauty and Durability when Final Paint Finish is Applied

## INSTALLATION & FINISHING LUMBER PRODUCTS ULTIMATE EXTERIOR TRIM

Until installed, this product needs protection from direct sunlight, water saturation, dirt and other elements.

Ultimate Exterior Trim should be stored in a dry location off of the ground on blocks and protected with a waterproof cover. Do not completely seal the bundle as good air circulation is required.

Lumber Products Exterior Trim may be installed using industry standard installation processes for solid wood Trim – no need for any special tools, handling, or cutting.

**YOU CAN TREAT IT LIKE WOOD  
BECAUSE IT IS WOOD!**

Lumber Products Exterior Trim requires a finish coat of any latex base Exterior paint for your finished product... paint adhesion is comparable to any properly primed wood product.

For complete storage, handling, installation, and finishing instructions, ask for the SumX Trim™ detailed guidelines.
